Statement: For the domain specific programming language from Lab 1

Requirement 1: write 2 programs

Note: The 2 programs must cover all types of statements provided by the language. At least one of the programs must be of medium size (namely at least 20 statements)

Requirement 2: use GenAI to validate BNF – provide sequence of prompts, input/output

Requirement 3: based on the recommendations given by genAI tool, update grammar if necessary

Delivery time: 1 week

Deliverables:

- 1 doc for each program
- 1 doc – use of GenAI
